ZOOM SONG

Verse 1

I was on you yesterday and everything was great

But today I tried to get on you but you made me wait

I was in the waiting room not wearing any pants

You let me in on ZOOM, but I was frozen in trance

CHORUS

This isn't working

This worked yesterday

This is a bad connection

Sorry, what did you say?

Maybe we won't be on Zoom someday

Verse 2

I got bad connection it's quite a disgrace

Now I am frozen with a contorted face

I stand up to fix it, not wearing pants oh jeez

I turn off camera, use the chat, and talk with emojis

REPEAT CHORUS

BRIDGE

Someone please give me control

I got something share

REPEAT CHORUS and add big finish!
